# Etac M100

M100 is a modern basic wheelchair with unbeatable comfort and safety. Smart options with simplified settings makes it easy to adapt for various user needs. Furthermore it comes in 12 sizes. Short or tall, big or small there is a M100 for everyone.

## A wheelchair for comfort and safety

The padded upholstery offers pleasant, comfortable seating and the back support can be set in height as well as the detachable arm supports. Additionally the angle adjustable foot plates provide a firm support. With the choice of three rear wheel sizes the seat height can be varied with 12 cm.

Two seat angles options and rear wheel balance positions ensure stability and easy propulsion. The swing away leg supports are lockable and can be used for lifting the chair. For car transportation the M100 can be strapped down direct in the frame. In addition there are also three frame colors to choose between.

### Front seat height

38–52.5 cm (15"–20¾") measured to the seat tubes upper side with +3° tilted seat.

### Back support height

37.5–47.5 cm (14¾"–18¾") measured from the top of the seat tube, and seat depth is measured from the back tube.

### Seat angle

0°/3°

### Transport width

24 cm (9½"), without rear wheels

### Dimensions and tolerance

+/- 2%

### Maximum user weight

125 kg (275 lbs).

### Wheel sizes

Rear wheels:  
24", 22" or 20", solid tyres

Front castors:  
8", 6" or 5", solid tyres

We recommend that you use our prescription forms when ordering Etac wheelchairs, see [www.etac.com](http://www.etac.com).

Model cm (inch)	Seat width cm (inch)	Total width, cm (inch)	Seat depth*, cm (inch)	Weight	Art. no.
