

combi frame:xTM

The Combi Frame:x is a unique wheelchair frame for customized seating systems.

The Combi Frame:x is ideal for both indoor and outdoor use and can be fitted with different seat and back systems.

Both users and caregivers benefit from the many built-in functions and simple adjustment possibilities. The Combi Frame:x is suitable for users needing an individual seating system and base.

The x:panda and Panda Futura seats are easily mounted directly on the Combi Frame:x or by using an adaptor. Other types of seating units are mounted directly onto the base plate.

The frame is available in silver, black or white with 12½", 20", 22" or 24" rear wheels, and 6" or 7" front wheels.

58-73 cm

90-114 cm

83 cm

max. 100 kg

Centre of gravity and tilt in space

The Combi Frame:x centre of gravity is self-centring. The seating unit can be tilted from horizontal to 40 degrees

Compatible with different seat and back systems

The Combi Frame:x can be equipped with different back systems and cushions

Fixed mounting or interface

Various seats can be mounted directly onto the Combi Frame:x. Alternatively the seats can be mounted into an interface. The frame is used for a variety of seating units like the Panda Futura and x:panda from R82

Safe transportation in vehicles

The Combi Frame:x complies with the international transit wheelchair standard ISO 7176-19. The Combi Frame:x can be used with seat units that comply with ISO 16840-4

Sizes

98xxxxxxx The Combi Frame:x is available in four sizes
