

Nimbo Lightweight Posterior Posture Walker

FEATURES:

- » Aluminium Frame in bright colours.
- » Height adjustable.
- » Soft rubber wheels adhere to any surface and will not allow the Nimbo to slide backwards.
- » One directional rear wheels with aluminium ratchet and pin mechanism.
- » Anti-Reverse override bracket disengages the one directional rear wheels and allows forward & reverse mobility.
- » Front swivel wheels enhance maneuverability and ease of turning.
- » Locking mechanism easily switches front wheels from swivel to non-swivel.
- » Each wheel is independently adjusted.
- » Skid resistant, non-marking and easy rolling wheels.
- » Latex-free handgrips with flanged ends.
- » Folds easily for convenient transporting.
- » 2 year Limited Warranty.

Helps the user participate in outdoor activities. Ample 9" diameter height adjustable wheels for performance.

Nimbo Forearm Platform

Constructed of lightweight aluminium, the Nimbo forearm platforms are height and depth adjustable. The handgrips extend forward or back to the position needed, supinate, pronate and are angle adjustable. Each side is individually adjustable and allows custom positioning for each user.

The contoured armrest is moulded in one piece with a flexible edge for added comfort and has Velcro straps to prevent arms from slipping. They can be mounted to the mounting bracket either towards the inside or outside of the walker for lateral adjustment. Spacers are included for additional lateral range.

Pelvic Stabilizer

The pelvic stabilizer is adjustable in width/height and features back & lateral pads and a support belt. It is recommended for users who have an asymmetrical posture when standing or walking and therefore, cannot stay centered in the walker.

Seat

Seat mounts on standard walker. They fold up for standing and walking and fold down for convenience.

Seat Harness (image not shown)

Adjustable sling seat supports the user that cannot stand completely on their own.
